DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 9 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Moutray, III (U.S. Patent number 4,470,456).

Moutray shows an apparatus for sampling fluid from a formation comprising a tool disposed in a well borehole; a fluid moving device at a surface location; a fluid diverting device (the elbow shown in dashed lines below 45 in figure 1 clearly diverts fluid); a pad member (37) and a first port (31) as called for in claim 9.

Moutray also shows the fluid diverting device coupled to the first port as called for in claim 12.

Allowable Subject Matter

2. Claims 18-25 are allowed.
3. Claims 10, 11, and 13-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Whitten (U.S. Patent number 3,782,191); Skinner (U.S. Patent

number 6,006,834); and Hallmark (U.S. Patent number 4,339,948) teach similar apparatus.
